

PopUp Mainframe SME

Location – Chennai, India

Experience – 4-10 years

Qualifications – Any Graduate

PopUp Mainframe is our brand new, cutting-edge mainframe modernisation product. PopUp Mainframe enables customers to create mainframe environments on-demand and deploy them anywhere, including in the cloud. PopUp Mainframe is a game changer for organisations which rely on mainframe as it removes the bottlenecks surrounding mainframe environments and finally allows mainframe projects to be fully agile!

PopUp is a privately held IT software and services company based in the UK and India, delivering engagements globally based on our customer requirements. We have a full pipeline of new projects across the world and we are actively growing our delivery capability.

The Role

We are looking for mainframe SME developers, Sysprogs and Operation Analysts who are multiskilled and have a well-rounded skill base. Any exposure to IBM zD&T and Mainframe DevOps Tooling will be a distinct advantage.

PopUp is at the cutting edge of mainframe innovation and you will need strong problem solving skills and creativity with the ability to quickly analyse problems, understand and act. We have a flat, highly collaborative structure and we embrace high quality work and continuous improvement.

Required Skills

1. Must have minimum 4 years' of experience as a mainframe applications developer or System Programmer
2. Sound knowledge of the following key mainframe skills: COBOL or PL/I, JCL, DB2, CICS, VSAM, SORT utilities, File-AID, SPUFI, ISPF and SCM tools e.g. Endeavor, Changeman or ISPW.
3. Understanding of the software development lifecycle (SDLC) and release management.
4. Well versed in writing test cases and creating test plans etc.
5. Ability to engage directly with clients and stakeholders independently.
6. Strong analytical and design skills.
7. Ability to collaborate and communicate well across the team/organization.

Good to have experience & skills

1. Any exposure to IBM zD&T
2. DevOps skills and experience e.g. Topaz, Jenkins, Delphix, GIT
3. z/OS USS knowledge
4. REXX, CLIST, ISPF dialog development experience.
5. Running / Testing Batch
6. Sysprog DB2 Skills, CICS, MQ or IMS
7. Distributed experience i.e. Solaris and Linux
8. Mainframe Performance experience
9. Cloud

Personal Attributes

- Self-driven team player able to work collaboratively.
- Flexibility, strong commitment to high quality work and continuous improvement.
- Strong problem-solving skills with the ability to quickly analyse problems, understand and act.
